PROFILE SUMMARY

Final-year Computer Science and Engineering student with **entry-level DevOps knowledge and hands-on project experience** in **Linux, Git/GitHub, Docker, Jenkins, CI/CD, Kubernetes, Terraform, and AWS EC2**. Familiar with application containerization, automated build and deployment, Infrastructure as Code, and monitoring using Prometheus and Grafana. Seeking an entry-level **DevOps Engineer** role to apply and strengthen skills in automation, cloud infrastructure, and continuous delivery.

TECHNICAL SKILLS

OS : Linux, Ubuntu, Bash, Shell Scripting

Web: HTML, CSS, JavaScript

Version Control: Git, GitHub, VScode

Devops tools : Docker, Docker Hub, Kubernetes, Jenkins, CI/CD pipelines

Programming: Python (Basic), Java

IaC: Terraform (Basic)

Cloud: AWS EC2, S3, IAM, CloudWatch

Monitoring: Prometheus, Grafana

Database: SQL, DBMS

EDUCATION

B.E. Computer Science and Engineering

Mount Zion College of Engineering and Technology, Pudukkottai

2023 – 2027 | Final Year | **CGPA: 7.40 / 10**

Higher Secondary Education — Class XII

63.67%

INTERNSHIP

SD Pro Solutions , Trichy

Artificial Intelligence Intern | 18 June 2025 – 02 July 2025

- Worked on AI and Machine Learning fundamentals using Python and Scikit-learn.
- Performed data analysis and preprocessing using NumPy and Pandas.
- Worked with OCR (Optical Character Recognition) for extracting information from images and documents.
- Applied Machine Learning techniques to analyze datasets and support AI-based solutions.
- Developed problem-solving and analytical skills through practical AI projects.

Approtech R&D Solutions Private Limited , Chennai

UI/UX Design Intern | 05 June 2026 – 06 July 2026

- Worked on **UI/UX Design** fundamentals and user-centered design concepts.
- Contributed to the project “**SkyLink – Smart Airport Experience.**”
- Designed and organized **user-friendly interface concepts** for the project.
- Applied **creative thinking, problem-solving, and design principles** to improve user experience.
- Gained practical exposure to **professional UI/UX design workflows** during the internship.

PROJECTS

1, End-to-End DevOps CI/CD Pipeline & Cloud-Native Deployment

- Built and automated an end-to-end CI/CD pipeline for a Flask web application using GitHub, Jenkins, Docker, and Kubernetes.
- Automated source checkout, dependency installation, unit testing, Docker image build, Docker Hub push, and Kubernetes deployment through Jenkins.
- Provisioned Kubernetes infrastructure using Terraform (Infrastructure as Code) and implemented containerized application deployment with scalable replicas.
- Integrated Prometheus and Grafana for application metrics, monitoring, and observability; configured GitHub Webhooks for automated pipeline triggering.

Tools: Git, GitHub, Jenkins, Docker, Docker Hub, Kubernetes, Terraform, Prometheus, Grafana, Python Flask, Cloudflare Tunnel

2, Automated CI/CD Deployment Using GitHub, Jenkins, Docker & AWS

- Pushed application code to **GitHub** for version control and source management.
- Configured **Jenkins CI/CD pipeline** to automatically build and test the application.
- Created and managed **Docker images** to containerize the application.
- Deployed the Docker container on **AWS EC2** for automated application delivery.

Tools : GitHub, Jenkins, CI/CD, Docker, AWS EC2, Linux.

CERTIFICATIONS

- **IOT intern Certification** — 01-03-2024 To 08-03-2024

LANGUAGES

- **English** • **Tamil**
